## CONTERRA TECHNICAL SYSTEMS A SYMBOL OF EXCELLENCE

At Conterra we will not build a product for emergency use unless we can make it better and more unique than the competition. Our gear is designed with personal safety and convenience in mind. Conterra bags open with as few operations as possible, speeding up your response time, while decreasing the need for bio cleanup. We use absolutely the strongest, highest quality materials available, including Ballistics nylon, #10 coil zippers, and our new SI-TEX FLUID PROOF FABRIC. Even our label is made of fluid proof, injection molded vinyl. All of our equipment is proudly made in the USA and features a lifetime guarantee. Our gear is more expensive, but we firmly believe that it is the best gear of its kind in the world.

***We think you will too.***
